## ARTICLE PROCESSING CHARGE

All articles published by [Baishideng Publishing Group](#) (Baishideng) are selected by an in-house editor and fully peer-reviewed by external reviewers. Baishideng applies the Creative Commons Attribution-NonCommercial (CC BY-NC 4.0) license, which permits others to distribute, remix, adapt, build upon this work non-commercially, and license their derivative works on different terms, provided the original work is properly cited and the use is non-commercial. See: <http://creativecommons.org/licenses/by-nc/4.0/>

All Baishideng journals are open-access (OA). An article processing charge ([APC](#)) for OA publication will be invoiced upon the acceptance of each manuscript and remitted in full by the authors' affiliations or funders to Baishideng before publication. The APC covers the costs of peer review, copyediting, typesetting, long-term archiving, and journal management.

**For unsolicited manuscripts, there are three levels of APC: (1) Standard APC for general manuscripts; (2) 10% discount for manuscripts contributed by young scholars under 45 years-old; and (3) 20% discount for manuscripts whose scientific significance is rated as AA or AB or BB (A: Excellent; B: Good) by peer reviewers. For invited manuscripts, the APC is fully waived.**

All Baishideng publications' APC standards are shown in Table 1. The detailed policy for discounted APC can be found at the bottom of the table.

### **Table 1 Baishideng publications APC charging standards**

<sup>1</sup>Standard APC for general (unsolicited) manuscripts.

<sup>2</sup>If an unsolicited manuscript meets any of the following requirements, the APC will be reduced by 10%: Supported by a fund of national level or above; Having a corresponding author who is a member of an association of national level or above; Having a first author who is a young scholar under 45 years-old; Or, having a corresponding author who is a member of the editorial board or who serves as a peer reviewer for Baishideng-published journals. Please note, these discounts cannot be combined; if your paper fits one or more of the criteria, the 10% discount will apply solely.

<sup>3</sup>If the scientific significance of an unsolicited manuscript is rated as AA or AB or BB (A: Excellent; B: Good) by the peer reviewer, the APC will be reduced by 20%. Please note, this discount is not combined with any other discount; if your paper fits the requirements for both the 10% discount (detailed above) and the 20% discount (detailed here), the 20% discount will be applied solely.
